

I have a comment of the issue of Low Power FM (LPFM) radio signal. I'm against it since I listen to K-Love in the Anchorage, Alaska area. It's a great station, and by bringing in LPFM, it would take presence over K-Love here, and K-Love is a significant asset in the community here, I've seen the changes taken place. So please don't do this, it's definitely in the not best interest. K-Love provides an excellent station here, and it's all provided by donations and it's commercial free. Thank You, Rick Wilson, Anchorage, Alaska
